| 12. | Cîteaux | 13,284 ha |
| 13. | Vosges | 280,000 ha |
| 14. | Jura | 180,000 ha |

*ha = generalized hectares of forest that includes other trees besides oak.

There are over 16.15 million hectares of oak forests in France.

Only 10% of these forests are owned by France's ONF (Office National-Forestiere), but 80% of oak for winemaking purposes is purchased directly from the ONF.
